

CPD SEMINAR
with
Dion Tabrett

The Welsh School of Homoeopathy is hosting a series of special Continuing Professional Development events and invites you to participate. We are now offering a series of **one day** events to be held from 10.00 to 17.30 at our premises in Carmarthen.

These events will provide an opportunity to experience and explore in depth the Tao of Homoeopathy as practised by some of the most accomplished and well-known practitioners.

We have invited **Dion Tabrett** to host the next of these events which will take place on **Monday January 13th 2020**.

The cost for this seminar is **£65** and includes refreshments but not lunch. If you would like to join us for this special event then please complete the attached application form.

Dion Tabrett

Dion graduated from the London College of Homoeopathy in 1992. He also has a BSc in Natural Sciences and an MSc in Molecular Biology -both focusing on human biology. He has recently become the 'Clinical Skills and Casework' module leader at the Centre for Homoeopathic Education BSc course in London.

Dion practices in Bristol and works closely with Mike Bridger at the Contemporary College - they also run the Orion Post Graduate course together.

Dion is a self confessed Compton Burnett 'geek', an 'anorak' of the highest degree, and is the author of the book 'Burnett Rediscovered' published in 2017.

The Practice of Homoeopathy as utilised by Compton Burnett

James Compton Burnett (1840-1901) always championed 'free thought' in medical matters. He was a legendary prescriber and author. His results with Homoeopathy were outstanding with cured cases of pathologies including TB and malignant tumours.

One of the main components to such success was his differentiation between the symptomatic similimum and the pathological similimum.

Dion will explore, define and give clinical examples of both.

"The fact is that we need any and every way of finding the right remedy; the simple simile, the simple symptomatic similimum and, the farthest reach of all, the pathological similimum. I maintain that we are still well within the lines of the homoeopathy that is expansive, progressive, science fostered, science fostering and world conquering."
